

PMSC SECRETARY REPORT

Matt Masaro

Another year of competition has passed and it still seems like the slowdown that came with covid is still here. Some events were busier than previous years and some were not.

There haven't been many big changes to club operations to report on this year. There has been some website refinement and a boosted effort to post on Facebook and I personally feel this has made communicating with membership more effective.

Continued efforts to engage the membership in our activities and continue to try to grow the club and modernize the processes we have are definitely needed in 2026.

Matt Masaro

Club Secretary
